2toLead Chief  
Technology Officer &  
Microsoft MVP

Speaker & Author

**Super Friendly** 😊

My Twitter is [@RHarbridge](#), I'm super friendly & proud to work at [@2toLead](#).

## Agenda

Module 1:  
Building A More Focused & Aligned Culture  
With Viva Goals

Module 2:  
Deep Dive Into OKR Best Practices & Viva  
Goals Advanced Configuration

# Driving Employee Experience AND Business Results

Employees want to know their work matters and makes an impact

Positive culture

A sense of purpose and meaning

Leaders are struggling with strategic alignment and visibility in a new world

of leaders can't name their company's top three goals

of frontline managers even know how work contributes to strategy

# Leverage OKRs to align teams on a common business goal-setting and management methodology

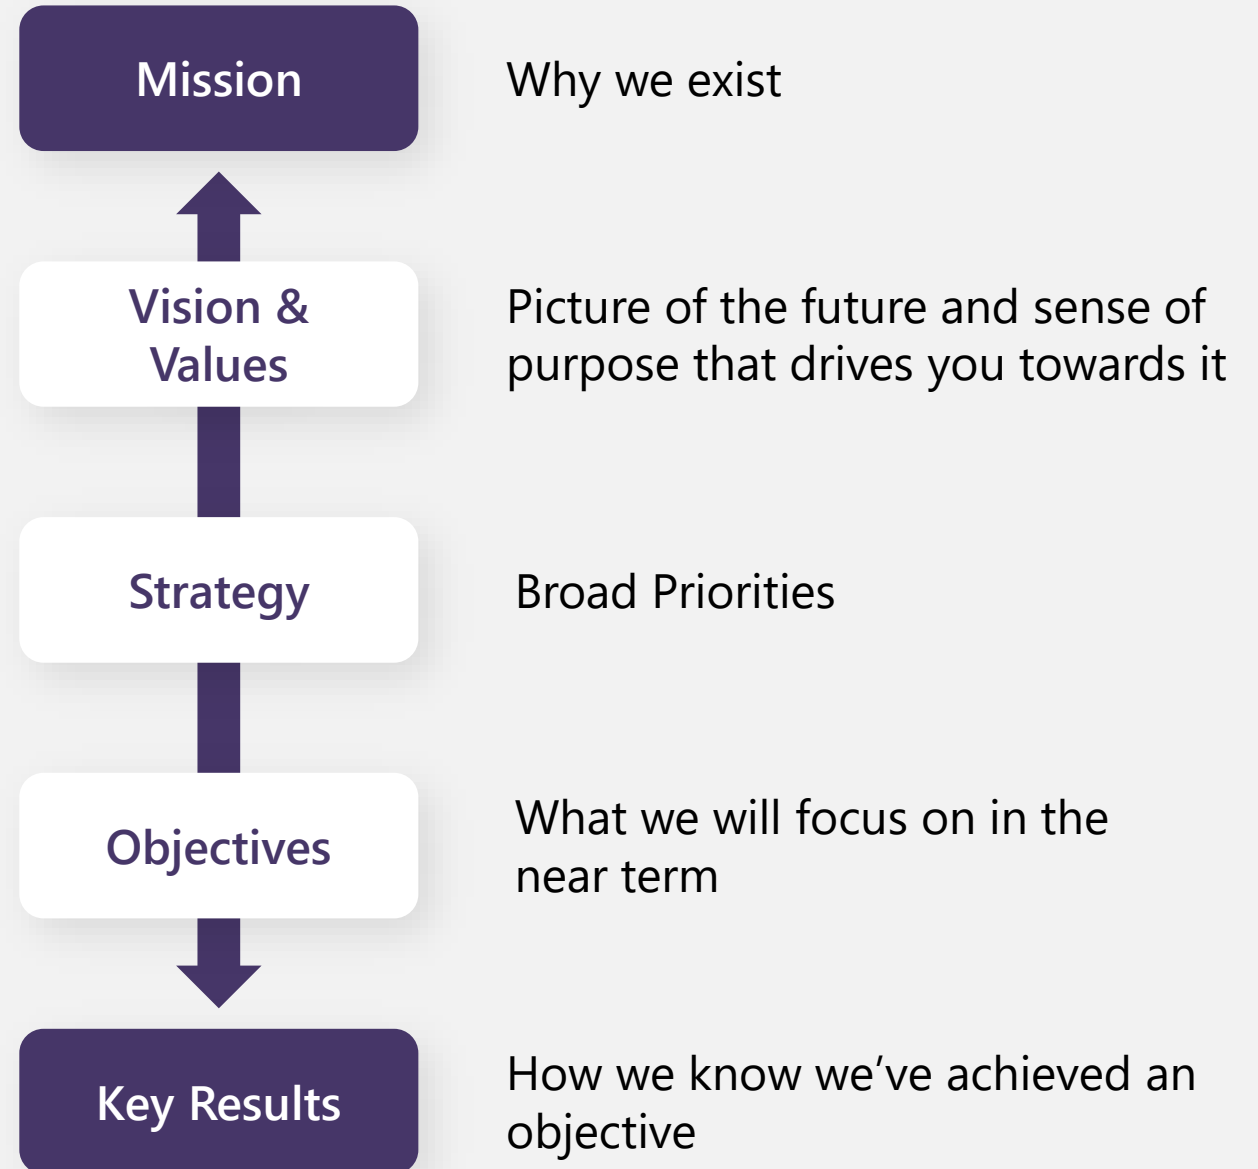

96%

of employees who use OKRs understand how their work ties into broader company goals

# Alignment is the foundation of impact

OKRs are a way to align your Mission all the way to your Strategy, Objectives, and Key Results.

It's a way to move quickly towards focused impact.

# OKR definition

## Objectives: What the team wants to accomplish

Objectives are clear, inspiring, public stretch goals shared across teams and organizations. To sharpen focus, limit to 5 objectives.

## Key Results: How the team will measure success

Key results are the team or org's measurable objectives. They should be ambitious but achievable, and quantifiable enough to lead to objective scoring. Set 3-5 key results.

For example, 70% achievement is typically considered successful. Scoring higher may mean the aspirational goals are not being set high enough.

## Key Initiatives and Projects: Activities which help the team achieve measurable outcomes

Key initiatives and projects are the path to impact for each key result. They are the activities whose execution will impact performance on the defined objectives.

# Objectives and Key Results (OKRs)

## Objectives

Qualitative, aspirational goal for an individual, team, or company

## Key Results

Measurable outcomes that contribute to the achievement of an objective

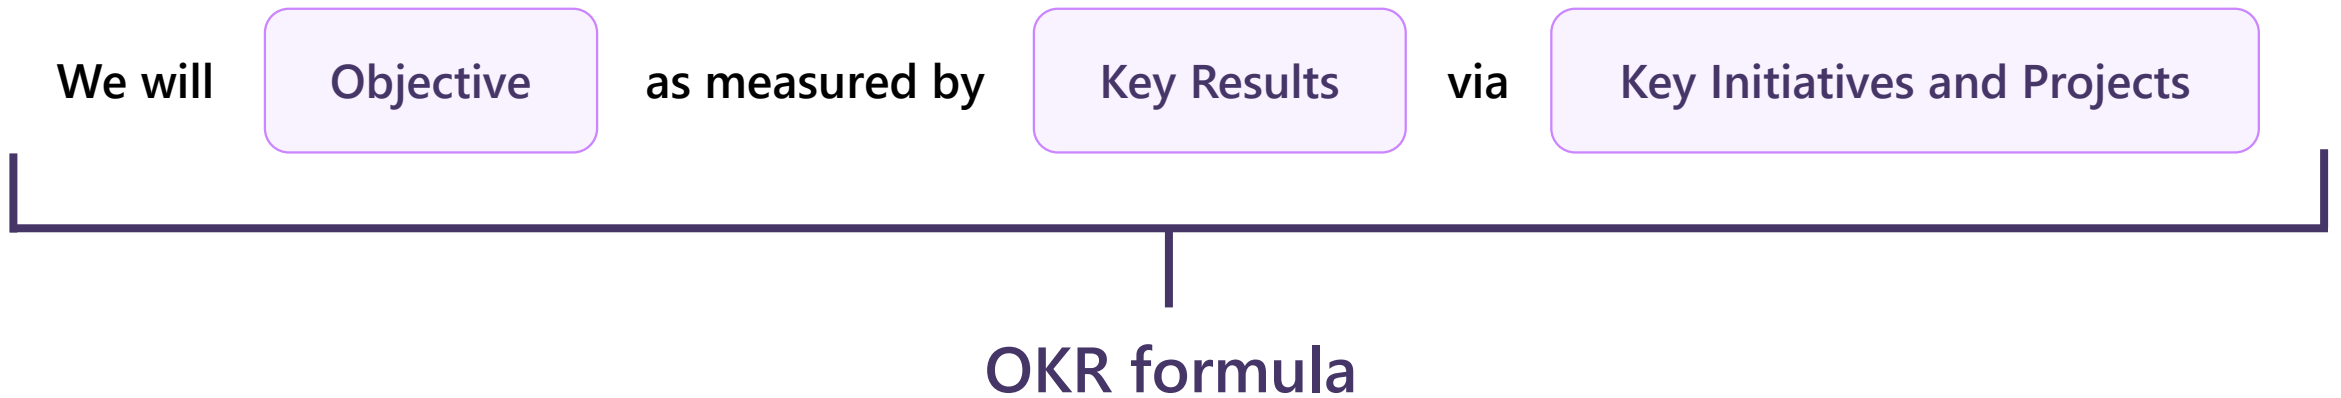

## Key Initiatives & Projects

These are the core activities that will be taken to achieve an objective

# Foundations of an OKR

How to write an OKR

# An OKR Example

## **Objective:**

Improve our marketing funnel to become the vendor of choice in the industry

### **Key Result 1:**

Execute 6 targeted lead campaigns by Q1

### **Key Result 2:**

Acquire 950 new MQLs for sales by Q1

### **Key Result 3:**

Drive \$10M in marketing-generated pipeline by Q1

### **Project 1:**

Update marketing materials

# Increase engagement and success with OKR benefits

## Alignment

Ensuring everyone is rowing in the same direction across the organization and pulling on the same rope.

## Focus

3-5 OKRs per team, per quarter. The power to say “no” and prioritize work effectively.

## Transparency

Ownership of core outcomes across the organization creates clear accountability and surfaces dependencies and roadblocks.

## Agility

Frequency of review is critical for agility, and dynamic real-time data enables faster decision making.

## Growth

Striving for incredibly ambitious outcomes and reaching for what’s possible.

# Follow a phased approach to fully embrace company-wide integration

1

## Beginning

### Starting your OKR journey

- No usage of OKR methodology
- No structured business rhythm
- Limited alignment of goals between levels

2

## Piloting

### Validating OKRs in your organization

- Organizational experimentation with OKR methodology via pilot group
- Small group learning OKR concept and building into business rhythm
- Small group trying to understand how OKRs will work for them at scale

3

## Adopting

### Committing to the OKR practice

- Executive Sponsorship
- Top levels of the organization are developing the OKR muscle and habit
- OKRs are expanding more widely into business rhythms
- OKR tool selection begins

4

## Scaling

### Rolling out OKRs broadly

- Executive Sponsorship
- OKRs are rolled out to the rest of the company and baked into large, organization-wide initiatives
- OKRs are firmly embedded in business rhythms throughout the organization, from top to bottom
- OKR tool is selected and used across the organization

5

## Centering

### Unlocking cultural buy-in for OKRs

- Executive Sponsorship
- Team members reference OKRs in every decision, big and small
- OKRs are firmly entrenched in business rhythms, becoming a global mindset Of focus and alignment
- Employees feel there is purpose at the center of everything they do

# Viva Goals Overview

# Enhance business performance

## Features & capabilities

Viva empowers people and teams to align on business priorities, set clear goals, and accomplish more together.

Goal clarity and alignment at scale

Expert-developed goal-setting templates and best practices

Effective meetings that meet business goals

Targeted learning experience for organizational growth

Powerful search across Microsoft 365 endpoints

Organizational knowledge graph

# What is Viva Goals?

An **integrated solution** to help organizations **align teams to their strategic priorities** and **drive measurable results**, as part of the Viva employee experience

The screenshot displays the Viva Goals interface. On the left is a sidebar with navigation options: Viva Goals (Relecloud), Search, Notifications, My OKRs, Customer Experience..., Relecloud OKRs, Marketing OKRs, Reta Taylor's OKRs, 5 More, OKRs & Projects, Users, Teams, 4 More, Invite users, and Aadi Kapoor. The main content area is titled 'Customer Experience' and includes tabs for OKRs, Projects, and Dashboards. It shows a filter for 'Period: Q2 2022' and 'Belongs to: This Team'. The interface lists several OKRs with their status and progress:

OKR Title	Status and progress	Owner	Due date
Deliver the best customer experience in our industry	Behind 50%	[User Icon]	Jun 30
Provide delightful customer support	On track 60%	[User Icon]	Jun 30
Decrease support ticket resolution time to 43hrs (from 55hrs)	Behind 60%	[User Icon]	Jun 30
Increase 'positive experience' survey score to 95 (from 90)	At risk 40%	[User Icon]	Jun 30
Decrease response time to 5hrs (from 6hrs)	On track 80%	CG	Jun 30
Every customer quickly and easily sees ROI from using our products and services	Behind 50%	[User Icon]	Jun 30
Our customer success teams are empowered with best-in-class tools to ensure customers are successful	On track 72%	[User Icon]	Jun 30
Share critical insights with our product and service delivery teams to keep our offers best in class	At risk 34%	ET	Jun 30
Recruit and develop the best customer experience talent so we can better support our customers!	On track 60%	[User Icon]	Jun 30

At the bottom, there is a '+ Add an item' button.

# What is Viva Goals?

Connect employees to your organization's goals and drive business results

Build and manage your OKRs in one place with deployment and best practices guidance

Keep aligned with OKRs integrated into your workflow and automated updates from critical work systems

The screenshot shows the Viva Goals web application. On the left is a sidebar with navigation options: 'My OKRs', 'Customer Experience...', 'Relecloud OKRs', 'Marketing OKRs', 'Reta Taylor's OKRs', 'OKRs & Projects', 'Users', and 'Teams'. The main area is titled 'Customer Experience' and shows a list of OKRs. Each OKR has a title, a status bar (e.g., 'Behind', 'On track', 'At risk'), a progress percentage, an owner's profile picture, and a due date. The OKRs are organized into a hierarchy, with some having sub-items. At the bottom, there is a button to 'Add an item'.

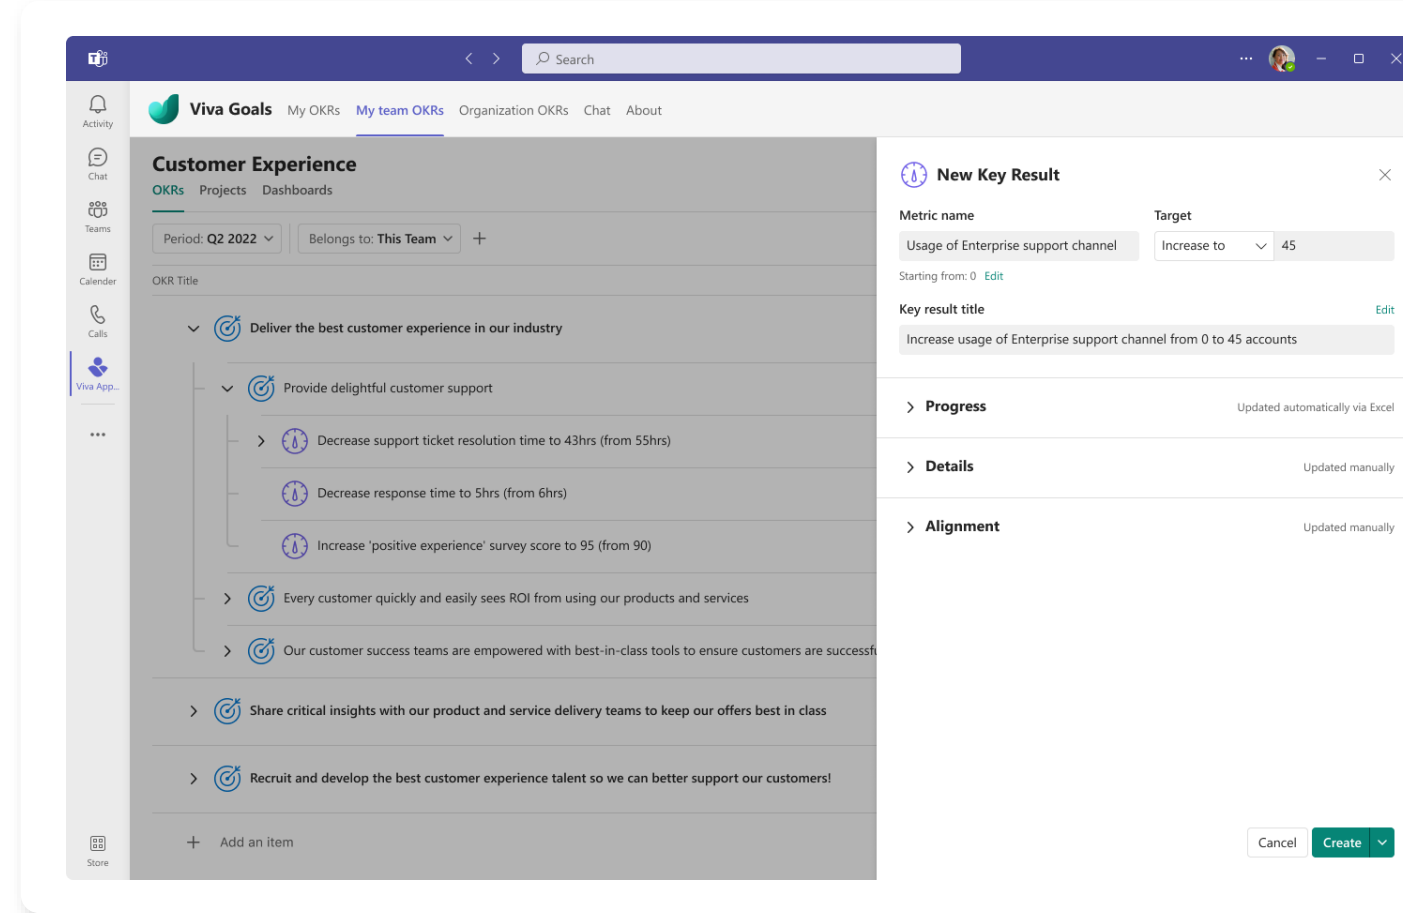

OKR Title	Status and progress	Owner	Due date
Deliver the best customer experience in our industry	Behind 50%	[Profile]	Jun 30
Provide delightful customer support	On track 60%	[Profile]	Jun 30
Decrease support ticket resolution time to 43hrs (from 55hrs)	Behind 60%	[Profile]	Jun 30
Increase 'positive experience' survey score to 95 (from 90)	At risk 40%	[Profile]	Jun 30
Decrease response time to 5hrs (from 6hrs)	On track 80%	[Profile]	Jun 30
Every customer quickly and easily sees ROI from using our products and services	Behind 50%	[Profile]	Jun 30
Our customer success teams are empowered with best-in-class tools to ensure customers are successful	On track 72%	[Profile]	Jun 30
Share critical insights with our product and service delivery teams to keep our offers best in class	At risk 34%	[Profile]	Jun 30
Recruit and develop the best customer experience talent so we can better support our customers!	On track 60%	[Profile]	Jun 30

# Viva Goals: OKRs at scale

## Agility to build and manage OKRs at scale

Create the right rhythms to make the creation, approvals and reviews of OKRs a seamless process

Gain visibility across your organization with a central hub for end-to-end goal management at scale

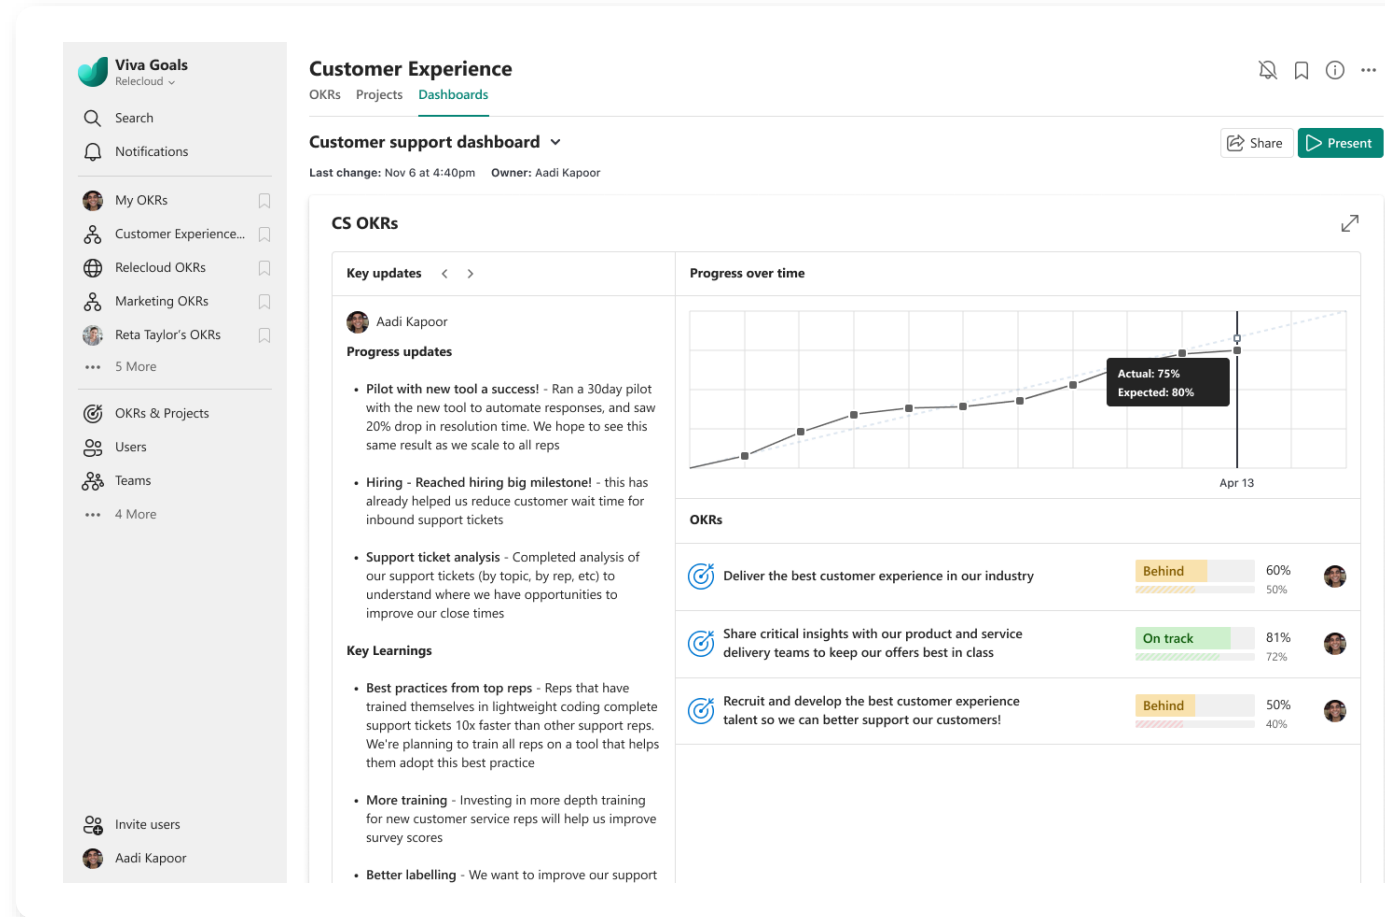

# Viva Goals: Connecting daily work to big goals

## Connecting daily work to business impact for your employees

Help individuals prioritize and perform with understanding of how their day-to-day work connects to organizational goals

Clarify roles and responsibilities and decrease friction with increased cross-organizational visibility

Establish a cadence and build employee habits needed to drive real results

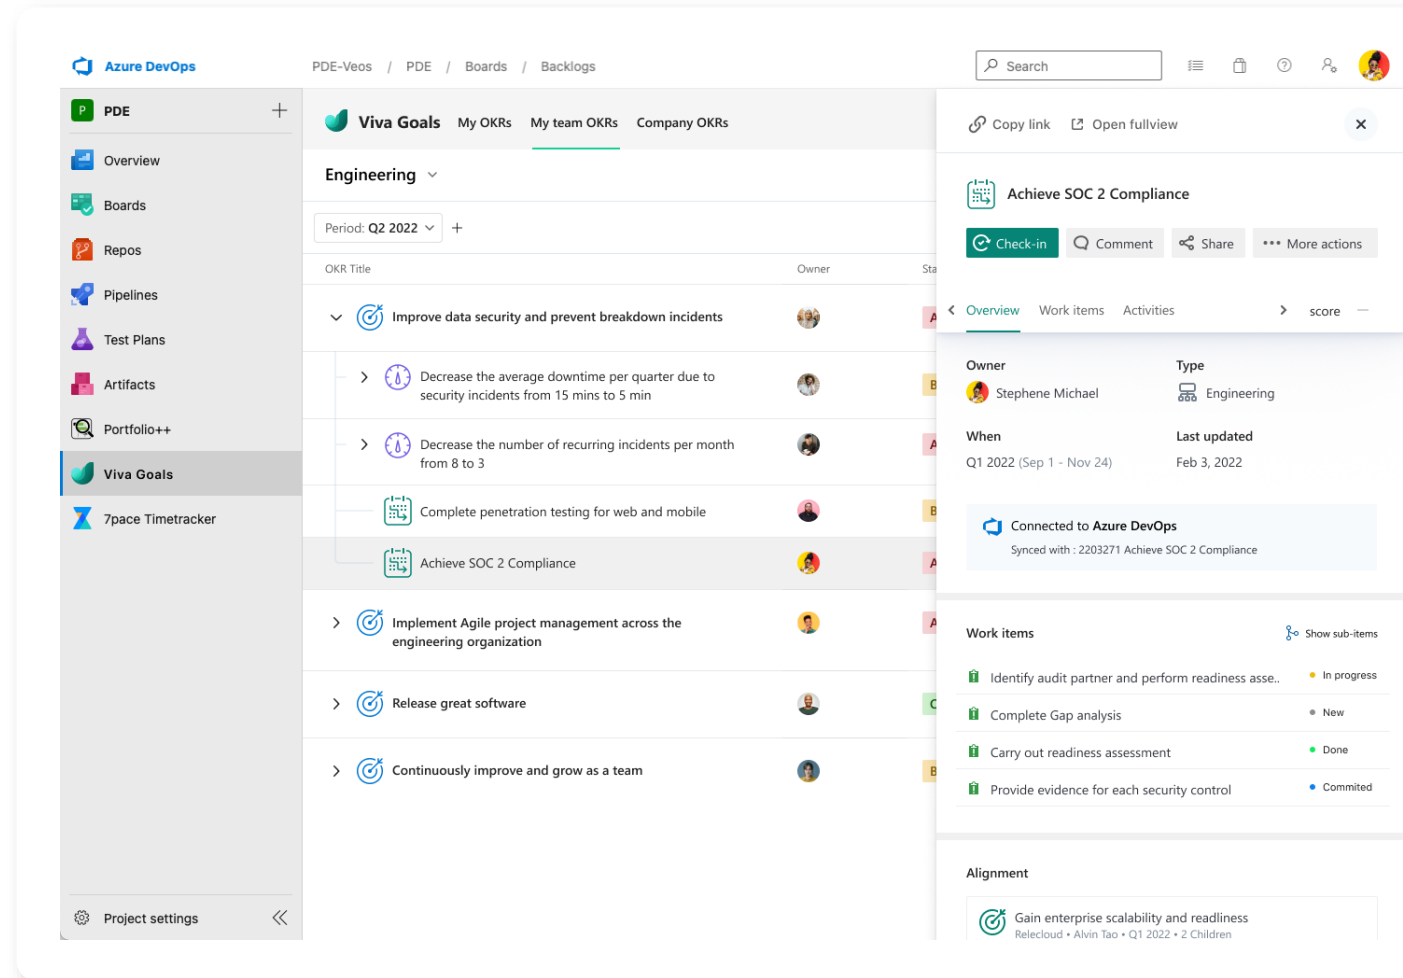

# Viva Goals: Integrations with your existing toolset

## Integrate into your everyday workflows

Stay in the flow of work with the Viva Goals app in Teams, Azure Dev Ops and more

Communicate, collaborate and check-in on goals with the message extension in Teams chat

Intuitive and agile product experience with in-product guidance and quick start guide to accelerate usage

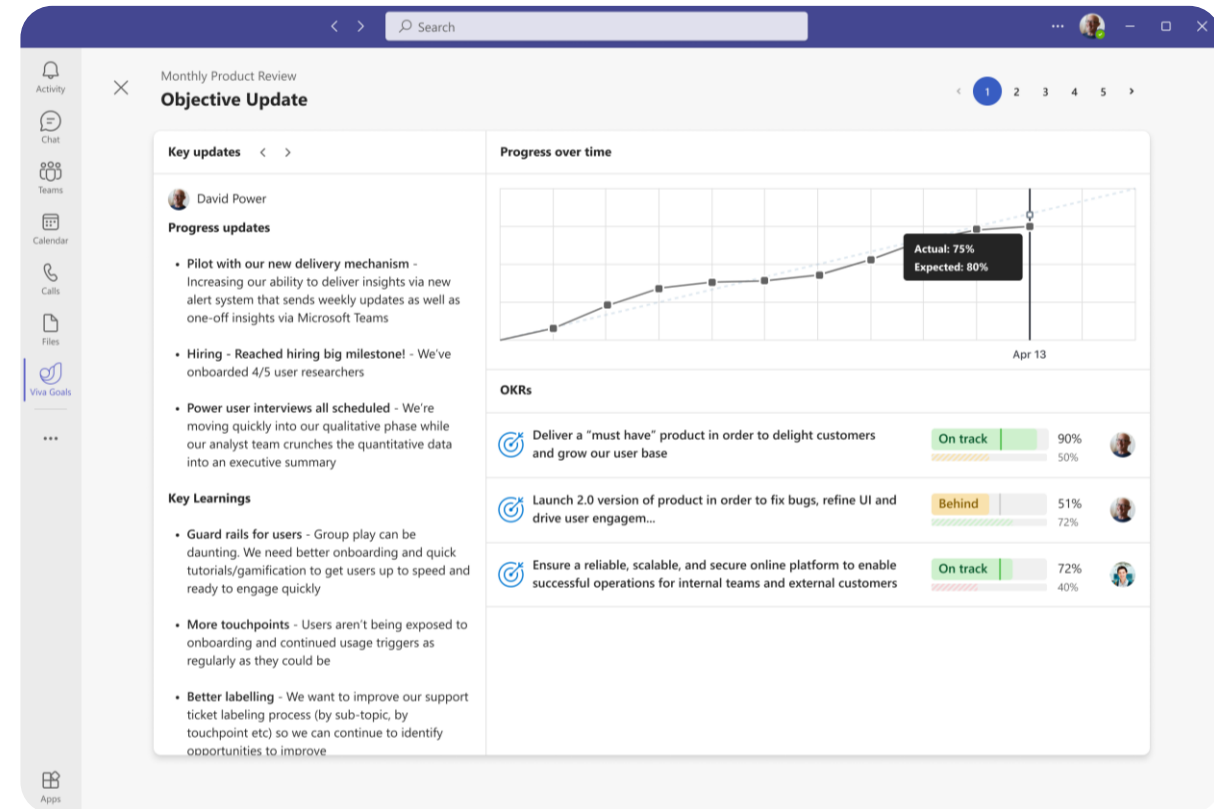

# Viva Goals: Dashboards for easy review

Spend less time preparing presentations, more time achieving goals

Create dashboards in Viva Goals to run your review meetings seamlessly during your review cadences (ex: quarterly for company-wide reviews, weekly for team reviews)

- Customizable widgets for presenting OKR information
- Real time OKRs data with up-to-date progress
- Interactive interface for deep dive discussions
- Custom dashboards for each persona

# Viva Goals: Built with the enterprise in mind

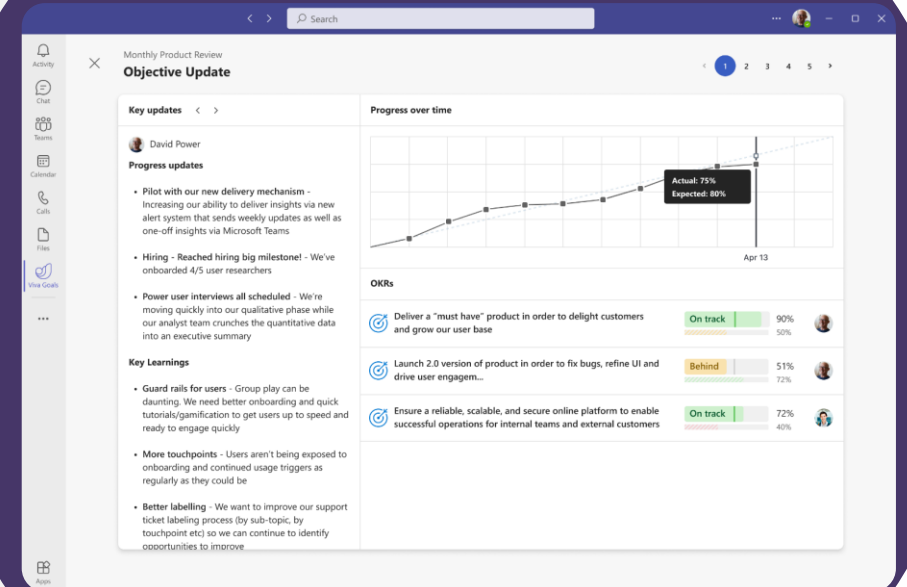

Privacy and security protections built-in  
(incl. conditional access, single-sign on, audit logs)

Native integrations into Microsoft 365 and  
3<sup>rd</sup> party tooling

EU Data Residency and full GDPR  
compliance by end of 2022

New check-in

Reduce latency by 10%

Current value3%StatusBehind

Add a note (optional)

We've built the skeleton for the gaming backbone and even at 25% are noticing a major decrease in latency. Excited about what this means once we're fully operational!

Great progress team! Let's keep the momentum going.

We must prioritize SOC 2 Type 1 compliance for the mobile app and gather feedbacks from our audit partner

### Platform Team OKRs

#### Key updates < >

Alex Wilber

#### Progress updates

- **Pilot with new delivery mechanism** - Increasing our ability to deliver insights via new alert system that sends weekly update as well as one off insight via MS Teams
- **Hiring - Reached hiring big milestone!** - we've onboarded 4/5 user researchers
- **Power user interviews all scheduled!** - We're moving quickly into our qualitative phase while our analyst team crunches the quantitative data into an exec summary

#### Key Learnings

- **Guard rails for users** - Group play can be daunting. We need better onboarding and quick tutorials/gamification to get users up to speed and ready to engage quickly
- **More touchpoints** - Users aren't being exposed to onboarding and continued usage triggers as regularly as they could be
- **Better labelling** - We want to improve our support ticket labeling process (by sub-topic, by touchpoint etc) so we can continue to identify

#### Progress over time

#### OKRs

Enable group play feature	<div><div>Behind</div></div>	60%	
Exceed 90% user retention	<div><div>On track</div></div>	81%	
Recruit and develop the best platform talent so we can better support our players	<div><div>Behind</div></div>	50%

The screenshot displays the Viva Goals Relecloud interface. On the left is a sidebar with navigation options: Search, Notifications, My OKRs (selected), Customer Success OKRs, Relecloud OKRs, Explorer, All Teams, All Users, Feed, Admin, and Invite Users. The main header shows the user profile for Abigail Jackson, with team information (Customer Success), follower count (0), and action buttons (Bookmark, Follow). Below the header are tabs for OKRs, Projects, Dashboards, and Activity. The OKRs tab is active, showing a list of OKRs for Q2 2022. The list includes a top-level OKR for '1. Earn customer love and trust' (Relecloud) and three sub-OKRs: 'a. Create a buttery smooth user experience...', 'b. Optimize on-demand customer training...', and 'c. Scale and improve the implementation...'. A third OKR, '3. Increase NPS+ from 2 to 3' (Abigail Jackson), is also visible at the bottom.

OKR	Type
Q2 2022	
1. Earn customer love and trust RELECLOUD	Global
a. Create a buttery smooth user experience backed by deep research of the customer journey PRODUCT	Team
b. Optimize on-demand customer training in order to scale learning & increase customer confidence CUSTOMER SUCCESS	Team
c. Scale and improve the implementation and adoption process for managed customers CUSTOMER SUCCESS	Team
2. Achieve an ARR of \$500M RELECLOUD	Global
3. Increase NPS+ from 2 to 3 ABIGAIL JACKSON	User

## Viva Goals in Teams

# Integrations

# What are integrations?

Integrations allow you to build efficiency when using OKRs by allowing you to use the platforms you already use in your day to day.

## **Semi-Manual**

Update your goals through a messaging app, e.g., MS Teams

## **Automatic**

Automatically update your goals by connecting to a source of truth, e.g., Azure DevOps

## Semi-Manual Integrations:

# Viva Goals and Teams Integration

## Bring Viva Goals into your Teams workflow

Create a collaborative Teams experience for purpose-driven teams to communicate effectively

Align and focus on the strategic priorities through OKRs with relevant context, notifications, check-ins within Teams

Provide enhanced search, navigation, dashboards and richer admin experiences

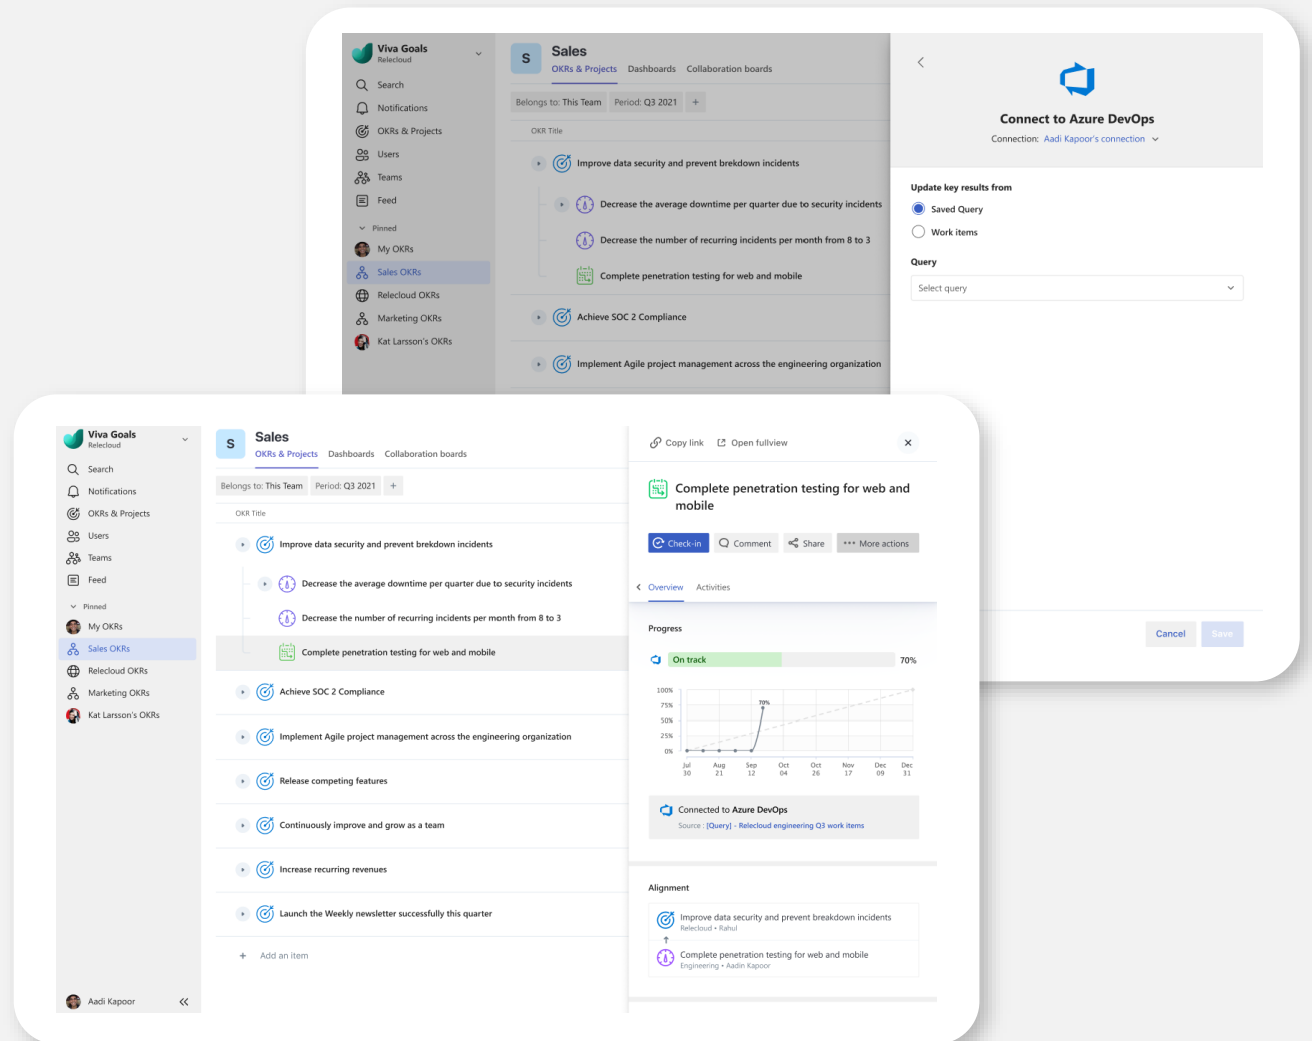

# Viva Goals and Azure DevOps Data Integration

## Engage in agile project management for initiatives

Connect shared queries and work items in ADO to Viva Goals within a single view in your Viva Goals environment

View automatic updates of Viva Goals initiatives and Key Results as work items progress

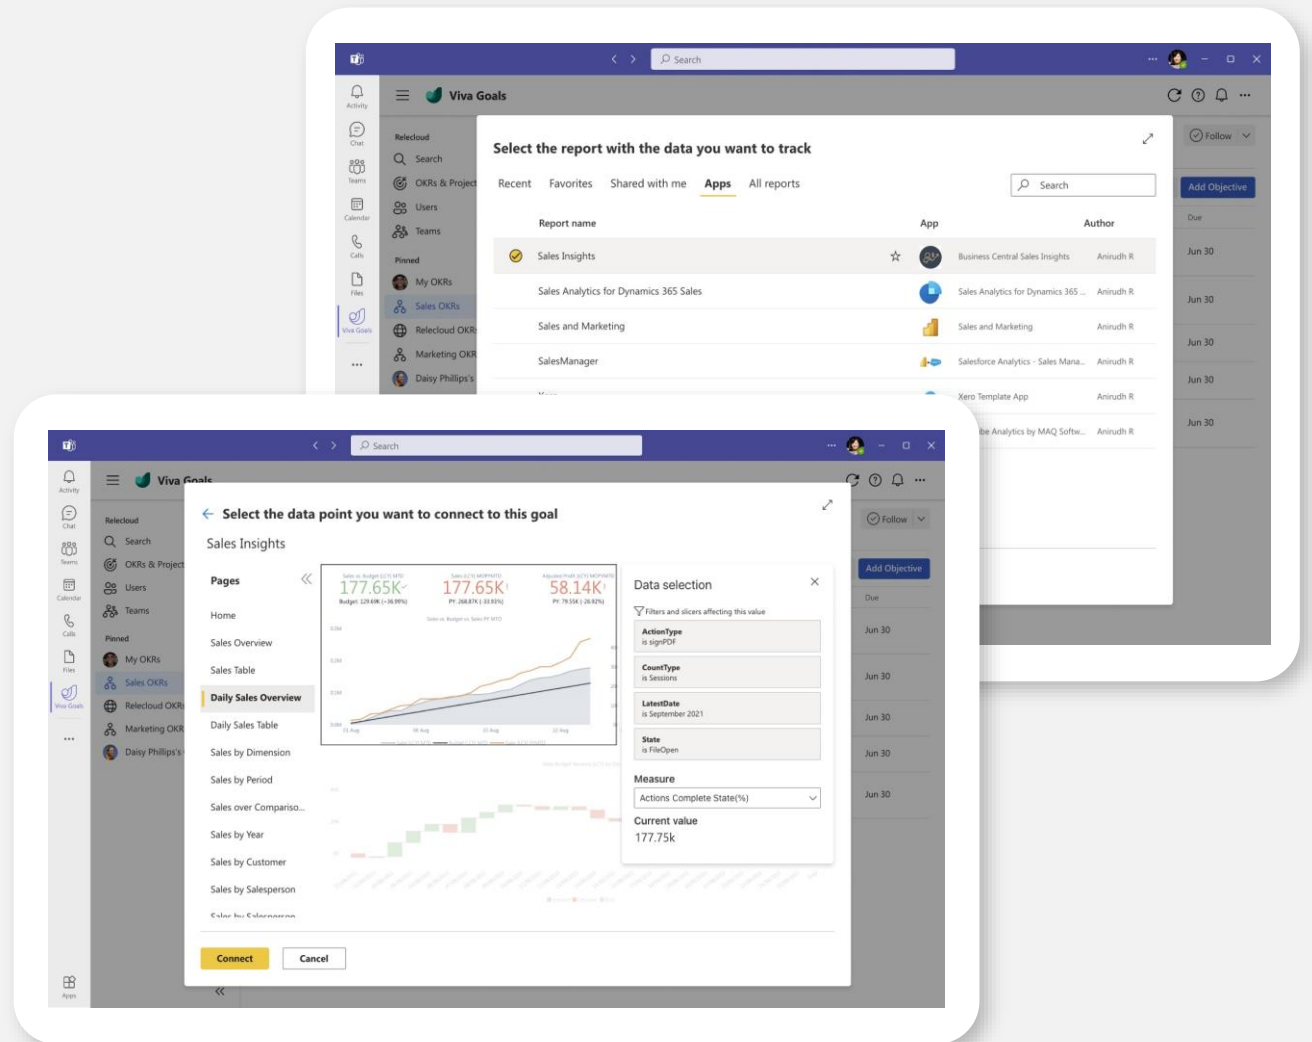

# Viva Goals and Power BI Integration

## Visualize the status of your OKRs with Power BI

Automatically update Key Results with data from Power BI

Quick one-click access to Power BI reports to make informed decisions

View the progress of your goals with powerful data visualization

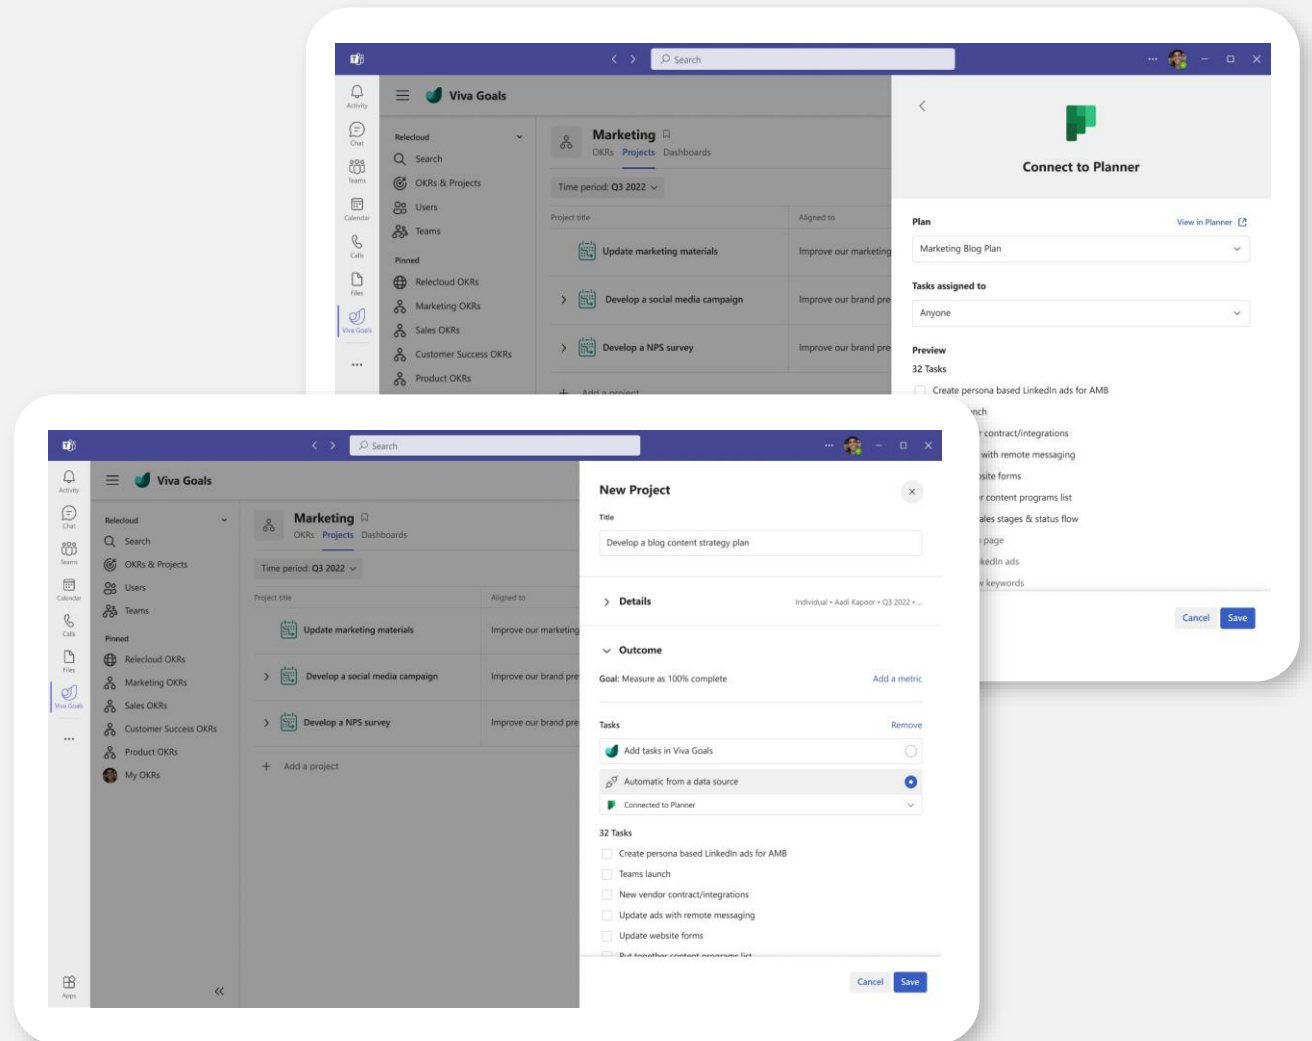

# Viva Goals and Microsoft Planner Integration

## Integrate task tracking in Microsoft Planner into OKR progress

Connect tasks to Viva Goals projects and Key Results to maintain a single source of truth

Align the daily tasks to the bigger picture

Have the most up to date information with automatic progress check-ins as Tasks are completed in Microsoft Planner

# Concept in Platform

## Objective Explorer:

- “How do I find OKRs that meet a certain set of criteria?”

## Review Dashboard:

- “How do I share information that matters with teams and individuals?”

The screenshot displays the Viva Goals Relecloud interface. On the left is a sidebar with navigation options: Search, Notifications, My OKRs (selected), Customer Success OKRs, Relecloud OKRs, Explorer, All Teams, All Users, Feed, Admin, and Invite Users. The main header shows the user profile for Abigail Jackson, with team information (Customer Success), follower count (0), and action buttons (Bookmark, Follow). Below the header is a tabbed interface with OKRs, Projects, Dashboards, and Activity. The OKRs tab is active, showing a list for Q2 2022. The list includes a team-level OKR for '1. Earn customer love and trust' and three individual-level OKRs for Abigail Jackson: 'a. Create a buttery smooth user experience...', 'b. Optimize on-demand customer training...', and 'c. Scale and improve the implementation and adoption process...'. Each OKR is associated with a specific team or user and has a corresponding icon.

# AI Can Help Us Manage Ourselves & Our Work Better

Sometimes it might be as simple as how you get started and caught up.

# AI Can Accelerate Processes & Save Leadership Time

Whether that be key learning opportunities, opportunities to connect with your peers or reports or much more based on established interests, skills, direct or indirect signals and more.

# Grounding AI In Organizational Data Makes A Difference

By leveraging your data we improve the quality of the prompt, and the quality of the response while doing responsible AI checks, security, compliance, privacy review and command generation.

# The Results So Far...

The results are clear, but the pace is also accelerating. Programming is the most mature of these 3 sample workloads, but with Copilot we are seeing already significant improvement.

## Productivity Increases with AI

[Study 1](#): Erik Brynjolfsson, Danielle Li, and Lindsey R. Raymond. Generative AI at Work.

[Study 2](#): Shakked Noy and Whitney Zhang (2023): Experimental Evidence on the Productivity Effects of Generative Artificial Intelligence.

[Study 3](#): Sida Peng, Eirini Kalliamvakou, Peter Cihon, and Mert Demirer (2023): The Impact of AI on Developer Productivity: Evidence from GitHub Copilot.

# Improve **Employee Alignment**

People In Viva & Viva Goals as well as countless other experiences further enrich the ways we communicate, align and connect. All elements of a good digital workplace and employee experience strategy.

See pertinent Viva information  
as you navigate across the org

The screenshot shows the 'People in Viva' interface. At the top, there's a search bar and navigation tabs for 'Home' and 'Organization'. Below the navigation, a profile card for Megan Bowen (Marketing Manager, Global Marketing US) is displayed. Underneath the profile, there's a section titled 'People reporting to Megan Bowen' with a list of team goals. A dropdown menu is open, showing the 'Moonshot' goal: 'Grow Moonshot revenue by \$5M by Q2'. Other goals listed include 'Share critical insights with our product and s...', 'Recruit and develop the best marketing expe...', and 'Implement and optimize marketing process'. At the bottom, there's a section titled 'Megan Bowen also works with' showing a list of colleagues: Lee Gu (Senior Design Manager), Henrietta Mueller (Software Engineer), Pradeep Gupta (Product Manager), Christine Cline (Marketing Director), and Diego Sicilani (Senior Design Manager).

This screenshot is similar to the one on the left, but with a dropdown menu open for the 'Topics' filter. The dropdown menu lists several topics: Design, Moonshot (which is selected), Human Resources, Financial, Research and Development, and Sales and Marketing. The rest of the interface, including the profile card for Megan Bowen and the list of team goals, remains the same.

# Technical Onboarding

# Admin definitions

Overview guidance: [Roles and permissions in Viva Goals](#)

## Org Owner

Organizational owners manage members, teams, setup, and billing for the account. By default, they own organization-level OKRs, but organizational objectives can be owned by other members also.

## Org Admin

Organizational administrators are members who manage the setup of the organization and can manage users and teams. An organization can have more than one organization administrator.

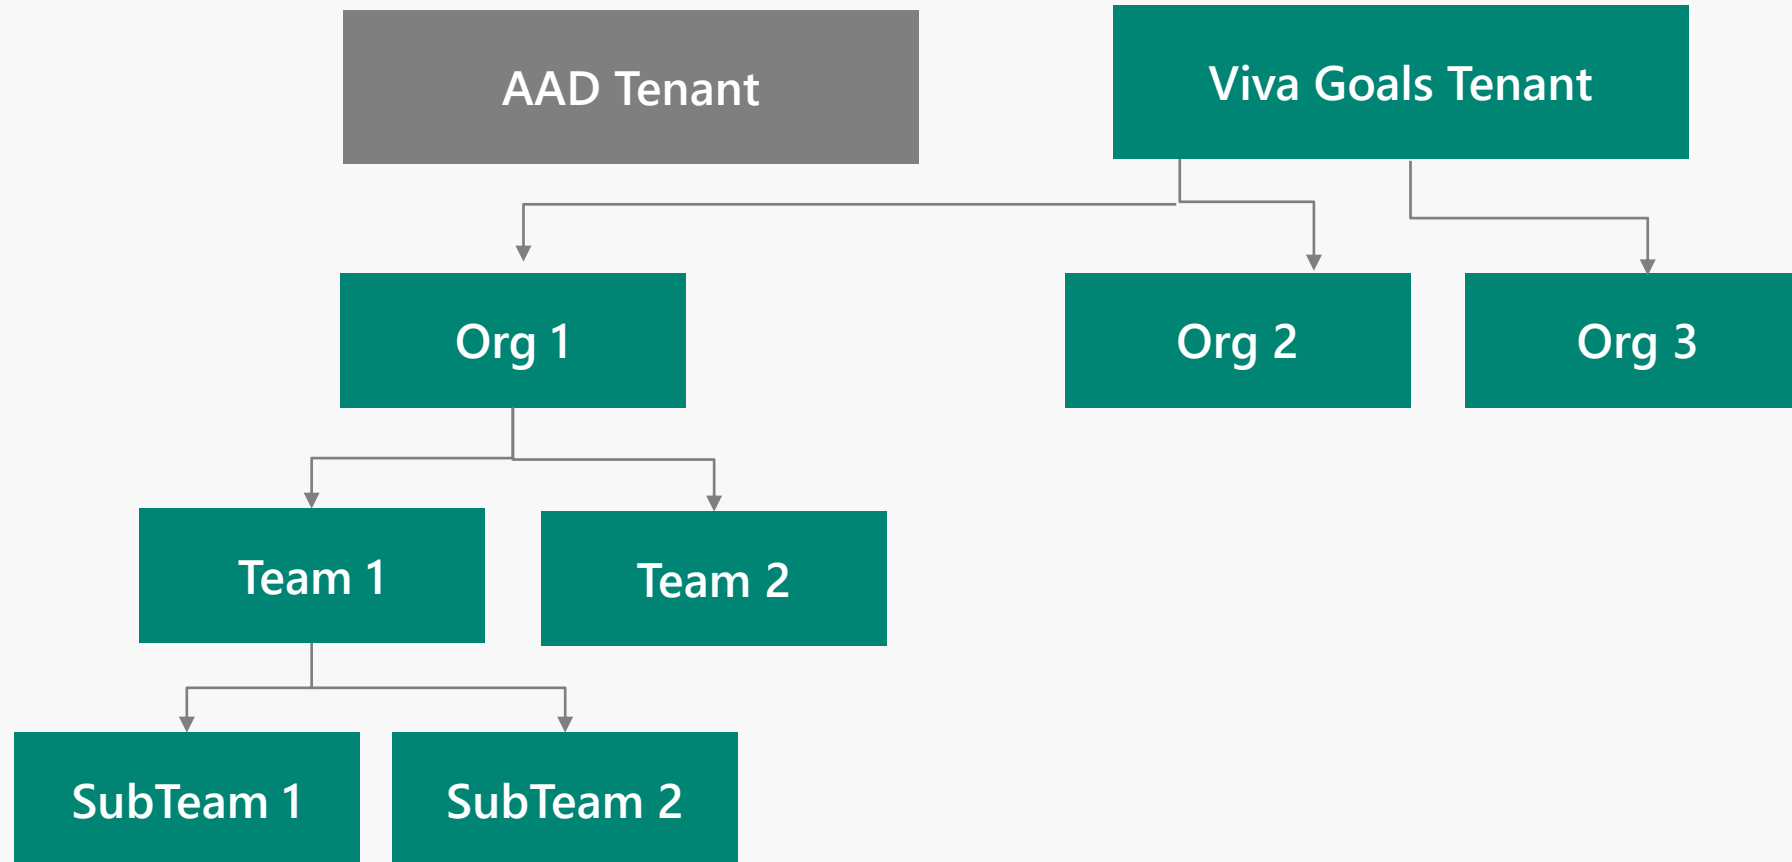

## Teams Owner

Team owners are members who own their team members' OKRs.

## Teams Admin

Team administrators are members who can manage team members.

<sup>1</sup>Step not included in Set Up Guide (aka Wizard)

# Task | Assign licenses and user groups

You must assign licenses for the users you want to have access to Viva Goals features. This can mean all the employees in your organization or a specific subset. Note: It may take up to an hour to get access after licenses are assigned.

## Overall guidance:

Use the following list of users and groups to manage licenses.

**Step 1:** Select 'Assign licenses' (to assign Viva Goals licenses), or

**Step 2:** Select 'Unassign licenses' to remove or manage licenses

## FAQ

**Q. How will license assignment work with Viva Suite?**

A. Once you login to goals.microsoft.com and a license is assigned automatically.

# Task | Configure org creators

Microsoft 365 Global Admins are responsible for managing the deployment of Viva Goals and permitting specific individuals to create Viva Goals Organizations.

**Overall guidance:** [Restrict organization creation permissions](#)

**Step 1:** Log in to your Viva Goals account.

**Step 2:** If you've directly landed in the **Create or join organizations** page, jump to step 3. If you land in an organization's landing page (My OKR page), select the organization selection dropdown from the navigation panel on the left.

**Step 3:** Select **Create or join organization**.

**Step 4:** In **Create or join organizations** page, select **Settings** in the top right corner.

**Step 5:** A menu with the three org creation permissions will appear.

**Step 6:** Choose the appropriate option and select **Save**. If you have selected **Specific users or groups**, enter the names of those users or a group (you can select only one group) and select **Save**.

## FAQ

**Q. Can anyone create an org?**

A. Yes, by default, anyone can create an org.

**Q. Can we lock down who can create an org?**

A. Yes, however, *only* Global Admins can edit permissions. If you are the Global Admin in the Microsoft tenant, you will have a settings button that allows you to customize who can and cannot create an org.

# Task | Assign the Organization Administrator role

Microsoft 365 Global Admins are responsible for managing the deployment of Viva Goals and assigning (or designating) specific individuals to perform roles in their organization to support them.

**Overall guidance:** [Roles and permissions in Viva Goals](#)

Viva Goals supports two kinds of accounts:

- **Regular user:** Regular team members/users can access all Viva Goals functionality, including creating, updating, and owning OKRs. They can also have additional responsibilities like administrator or manager.
- **Observers:** Observers can't create, edit, or own OKRs. However, they can view all OKRs.

## FAQ

**Q. What is the role of the Organizational Owner?**

A. Organizational owners manage members, teams, set up, and billing for the account. By default, they own organization-level OKRs, but organizational objectives can be owned by other members also.

**Q. What is the role of the Organization Admins?**

A. An assignable AAD role, Organization Admins have direct access to the Microsoft Viva Goals admin dashboard, and customized settings that can be applied specifically for your organization. They manage the setup of the organization, manage users and teams, and have access to all OKR permissions, including creating, editing, and deleting any objectives or check-ins. There can be more than one Organizational Admin.

# Task | Configure time periods

As a Viva Goals administrator for your organization, you can manage the OKR time periods and customize them for your organization's requirements. Instead of the default quarterly periods, you can make time periods monthly or define a custom time period and remove the default quarterly periods.

Overall guidance: [Manage OKR time periods](#)

1. Navigate to the **Time Periods** section in your admin dashboard. Select and save the month when your planning year starts.
2. Use the **Add Time Periods** option to add custom time periods.
3. Select **Actions** menu and Set **Custom** time period as Current Time Period.

# Task | Configure notifications

Check-ins are updates that OKR owners make to the objectives and key results they are responsible for. By default, Viva Goals sends notifications to the owners to make updates either through MS Teams or email. Global admins can customize notifications settings through the admin portal in Viva Goals.

**Overall guidance:** [How to set reminders for check-ins](#)

1. Navigate to Admin > Notifications
2. View available notification settings
3. Select desired option for each setting you wish to change.

# Task | Configure integrations

You can integrate industry-leading tools and platforms you use every day with Viva Goals.

**Overall guidance:** [Viva Goals integrations overview](#)

1. Navigate to Admin > Integrations
2. View available integrations
3. Select Enable to activate and setup a connection for a specific integration that you want. Follow the on-screen setup steps

## FAQ

**Q. Will more Microsoft application integrations be available?**

A. Power BI, Project, Planner, and Dynamics integrations are scheduled for Q1.

**Q. Can a customer utilize 3rd Party identity services?**

A. 3rd Party identity services (Okta, for example) are on the roadmap.

# Task | Configure OKR rules

You have some flexibility on what how to view objectives and key results in Viva Goals.

**Overall guidance:** [Configure your OKR model in Viva Goals](#)

1. Navigate to **Admin > Admin Dashboard**
2. Select the **OKR Model Configuration** tab

## FAQ

**Q. Once you define objectives and key results, how can you edit your view?**

A. You can do three things: 1) Nest objectives under key results, 2) Block objectives from ever contributing to the progress of their parent, and 3) Allow key results to be nested under key results.

# Task | Configure projects

Projects help keep track of all the work your organization is executing to achieve your Objectives and Key Results (OKRs). Like key results, projects can also be created under objectives and other key results in Viva Goals, depending on which outcome they help to achieve. A Global Admin can manage settings that enable/disable the ability for multiple teams & owners to collaborate on their key objectives & projects.

## Overall guidance: [Projects in Viva Goals](#)

1. Navigate to Admin > OKR & Projects
2. View available settings under Shared OKRs & Projects
3. Select desired option for each setting.

## FAQ

**Q. Where do projects fit in the OKR model?**

A. Projects are the actions that taken to achieve Key Results. Projects feed Key Results. Key Results Feed Objectives

**Q. Are projects required in the OKR model?**

A. No.

# Task | Pin the Viva Goals app in Teams

The Viva Goals app is installed in your Microsoft 365 or Office 365 tenant by default. It is recommended that you pin the app in Teams for the users you've selected to guide them to the app. You may modify the app permission policy.

**Overall guidance:** [Manage app setup policies in Microsoft Teams](#)

1. Create a custom app permission policy.
2. Edit an app permission policy.
3. Assign a custom app permission policy to users.
4. Manage org-wide app settings for Microsoft 365 Government.

## FAQ

**Q. How will the Teams app differ from the Viva Goals web app?**

A. The Teams app is a full featured version of Goals app.

**Q. Will users need to have Viva Goals licenses to access the Teams app?**

A. Yes

# Task | Plan and drive adoption in your organization

Now that you have prepared and configured your environment for Viva Goals, we recommend you review, plan and apply adoption best practices to help make your deployment a success. There are many resources available to help you plan and drive adoption.

- Introduce Viva Goals to employees via an [email template](#) that you can email directly from the Set Up guide (**note:** You'll need to set your org's preferences in [Microsoft communication to users](#) and specify the recipients).
- [General adoption guidance](#) (get started, engage your org, train your org, build champions, and secure your environment)
- **Viva Goals Adoption Guidance**
  - [Adoption guide](#)
  - [OKR success toolkit](#)
  - [OKR examples](#)
  - [Maturity model](#)

### Steps on your adoption journey

-  Get started
-  Engage Your Org
-  Train Your Org
-  Build Champions
-  Secure Your Environment

#### Get Started

Viva empowers employees to make learning a natural part of their day. Leverage these resources to amplify the importance of investing in learning and development and understand how it fits into the broader employee experience.

# Task | Get connected to support channels

Below are multiple Microsoft resources to support you in the care and feeding of Viva, including Viva Goals and OKRs. You can use these to get answers to your questions, get technical support, get ideas from what other organizations, and become aware of new features coming your way.

1. Sign up at [Microsoft Tech Community](#)
2. Subscribe to the following community hubs for discussions & blogs:
  - [Microsoft Viva Discussion](#)
  - [Microsoft Viva Blog](#)
  - [Microsoft Viva AMA](#)
  - [Microsoft FastTrack Discussions](#)
  - [Microsoft FastTrack Blog](#)

Microsoft Support

- [Get support - Microsoft 365 admin](#)

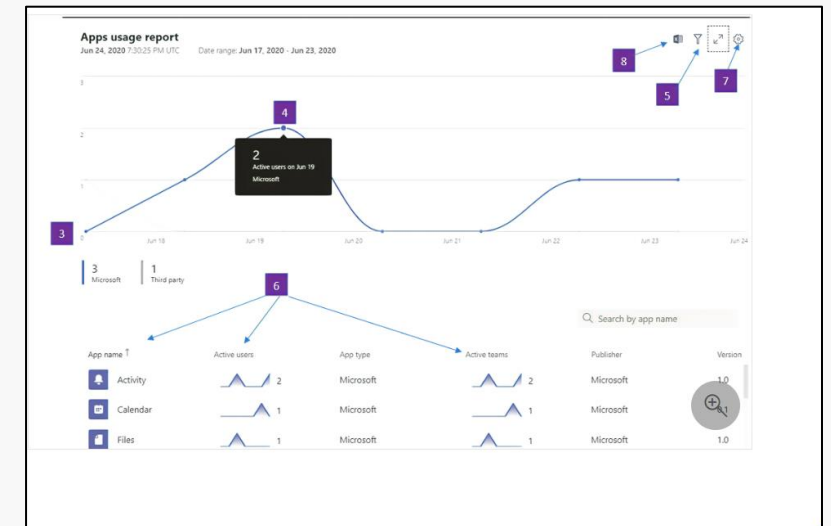

# Task | Promote and measure employee engagement

There are various tools and reports available to help you measure the level of organizational engagement for services you've deployed. We recommend starting with those listed below which are available through the Microsoft Admin Center.

Overall guidance: [Viva Connections Teams App Usage Report](#)<sup>1</sup>

There are other third-party tools available like Microsoft Clarify or Azure Monitor should you require more or different analytics. Use of these tools requires deeper setup, customization, and data usage considerations that are currently outside the scope of this guide.

<sup>1</sup> While the tool is called Viva Connections, it is available to all Viva modules, including Viva Goals. Whatever apps are in your tenant should show up in this report when products are GA. Will be available for Viva Goals on 8/1.

## EXAMPLE PILOT

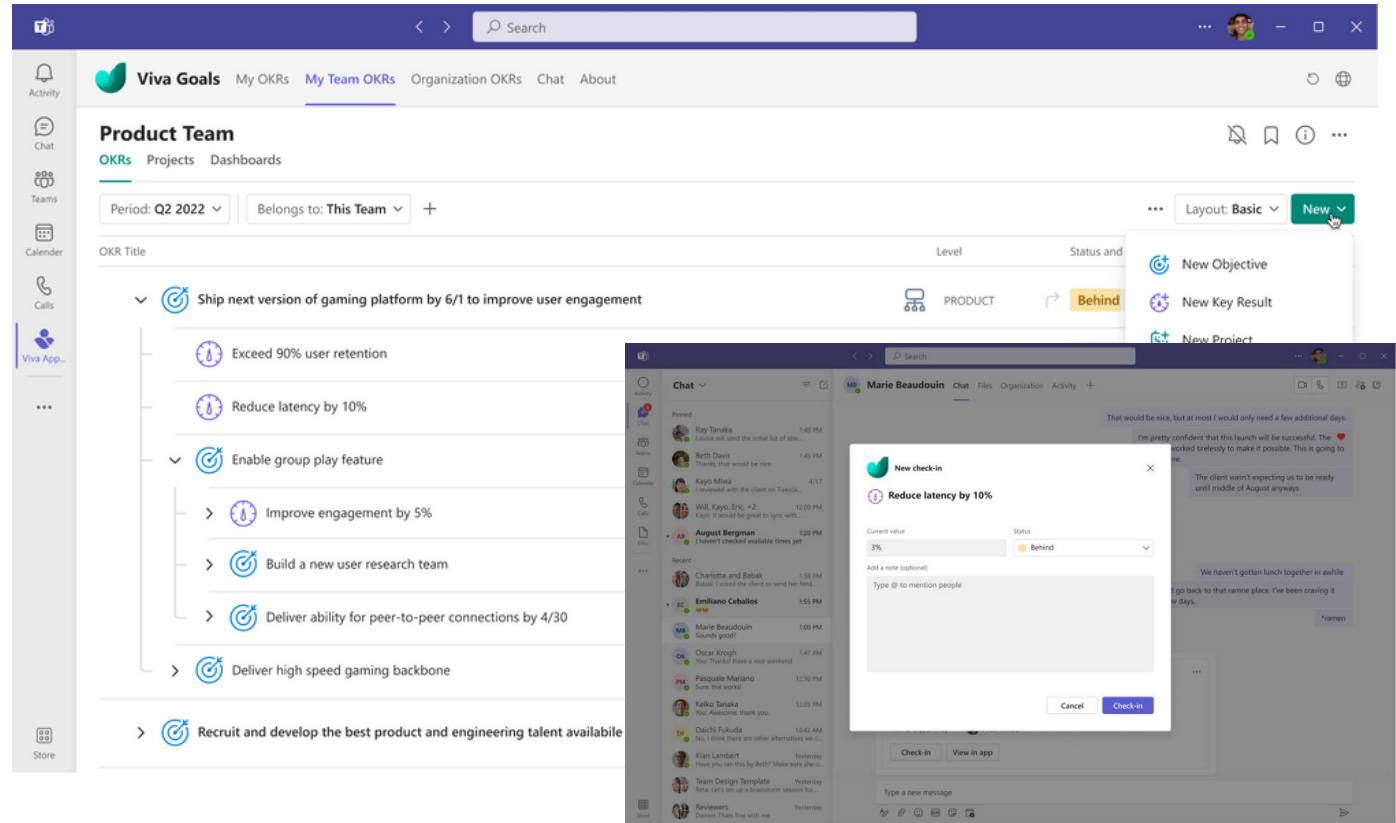

# Improve Team Performance & Alignment With Viva Goals

Empower objective alignment at the organizational, team and individual level. Connect work to outcomes with projects and tasks aligned to OKRs while sharing progress and insights across your organization with shareable links and pinned apps.

Estimated Duration:

YOUR EXPERIENCE MAY VARY...

Educate On Importance Of Connecting Goals To Outcomes

Expert Led Discussions On Viva Goals & Designing Your Pilot Program

Implementation Of Viva Goals Pilot & Pro-Active Support

# Sample Viva Goals Pilot Timeline

Week 1	Week 2	Week 3	Week 4	Week 5	Week 6
Kickoff	OKR Leadership Program	OKR Coaching Program	Viva Goals Software Training	Dashboard & Integration Support	Close-out Meeting
Communications Planning		OKR Design Workshop(s)			
Viva Goals Technical Deployment		Viva Goals Software Training			

# What are OKR Champions?

The OKR Champion facilitates the OKR process and drives adoption, either across the entire organization or within their department as part of a broader cross-functional OKR Champion group.

# Roles and Responsibilities

# OKR Champions 4 Responsibilities

1

**Be the communications center  
for all things OKR-related**

2

**Set organizational expectations  
for OKRs**

3

**Set up training opportunities  
and hold teams accountable**

4

**Celebrate OKR wins**

# The OKR Champion

**OKR Champions** play a key role in the rollout, adoption and continuity of leveraging OKRs within an organization in a sustainable fashion. They are the connection points between different teams that help keep OKR programs on track.

## What they do:

- Help other leaders communicate the vision behind change
- Coaching fellow colleagues on OKR methodology and software
- Facilitating OKR sessions, mainly creation and reflection
- Ensure OKRs are clear and aligned
- Directing people to helpful resources
- Improving how your teams practice OKRs

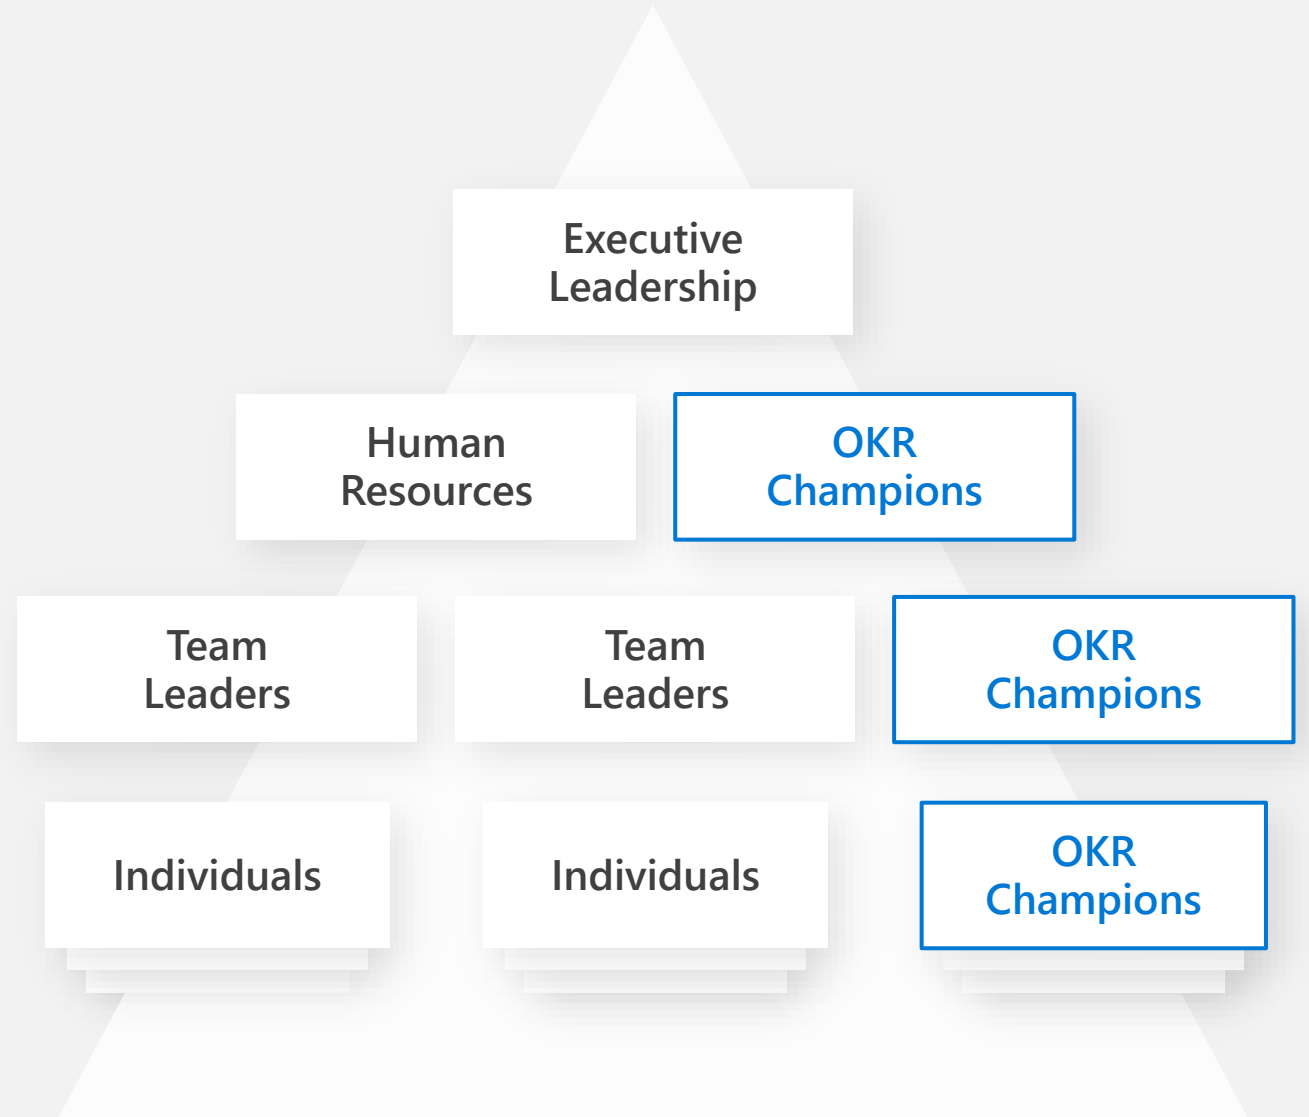

## What it takes:

- About 2-3 hours per week on average
- High-potential employees who are curious, effective listeners, prone to solving problems and building quality relationships
- Senior leadership support of Champions
- Complete software training

*Recommendation: 1 Champion for every 15 to 50 employees.*

# You can lead from everywhere.

Anyone can galvanize others to leverage OKRs and identify + implement solutions to fine-tune OKR programs.

# Common pitfalls when writing OKRs

## Great OKRs take practice:

- ✓ Objectives are not challenging or do not stretch
- ✓ Key results aren't quantifiable
- ✓ Creating too many objectives or key results
- ✓ Creating a list of tasks
- ✓ Writing OKRs that don't have an impact

# Common Obstacles

1. **Lack of mission, vision and values**  
Vital components which determine the overarching objectives you'll base your OKR framework on.
2. **Lack of focus**  
Best practice is to decide on a smaller set of objectives, each with set of key results, at one time.
3. **Lack of patience and/or commitment**  
Be committed and willing to wait up to 3+ months for results to become obvious.
4. **Lack of regular check-ins**  
Without frequent check-ins, it's difficult to keep OKRs on track, aligned and adjusted with the big picture.

# OKR fundamentals

## Types of Objectives

**Committed:** A goal that will be achieved. Resources and schedules should be adjusted to make sure it gets done.

**Aspirational:** An ambitious goal with no clear path to get there. It might roll over year over year and sometimes change ownership.

We will

Objective

as measured by

Key Results

via

Key Initiatives and Projects

# Writing and editing

If you could look back at the end of the year and only accomplish 3-5 things...

What would make the most dramatic impact on your business?

# Writing and editing

## Ground Rules:

They should be actionable

They should be aspirational

They should be meaningful

They should be “sticky” and easy to remember

# Writing OKR steps

Writing great OKRs is like writing a great book:

Step 1: Write

- Follow a formula

Step 2: Edit

- Ask the right questions

# A quick overview of OKRs

Objectives and Key Results (OKRs) is a simple, yet powerful goal management methodology that is utilized by high-output organizations to create alignment and engagement around measurable goals.

**Objectives:** What the team wants to accomplish

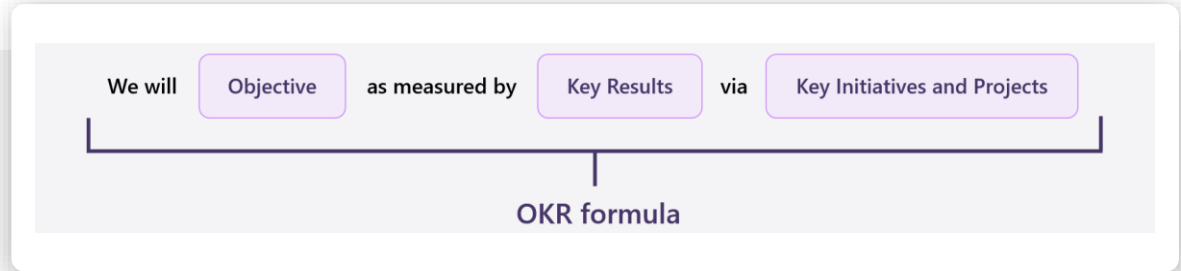

- Objectives are clear, inspiring, public stretch goals shared across teams and organizations. To sharpen focus, limit to 5 objectives.

**Key Results:** How the team will measure success

- Key results are the team or org's measurable objectives. They should be ambitious but achievable, and quantifiable enough to lead to objective scoring. Set 3-5 key results.
- For example, 70% achievement is typically considered successful. Scoring higher may mean the aspirational goals are not being set high enough.

**Key Initiatives and Projects:** Activities which help the team achieve measurable outcomes

- Key initiatives and projects are the path to impact for each key result. They are the activities whose execution will impact performance on the defined objectives.

**When done correctly, OKRs can enable significant acceleration of business results**

I will increase brand recognition as measured by *increased revenue, reduced churn, and improved customer retention*.

**Objective:** Increase brand recognition to make ACME Skye Rockets the market leader

- **Key Result:** Increase revenue to \$750M in 2020
- **Key Result:** Reduce net revenue churn by 2.75% in 2020
- **Key Result:** Improve customer retention to 98.6%
- **Project:** Create Customer survey to identify areas for improvement by compiling questions and communicating with key customers

# How to start writing OKRs

## Start with your team's purpose

This should come from and align to the corporate goals (business priorities) for the designated time period.

The company objective is to:

---

---

---

---

---

My objective, or my team's objective is to focus on:

---

---

---

---

---

# Let's choose an objective

## Choose what type of objective you want to create

There are two types of goals: committed and aspirational

**Committed:** is a goal that will be achieved. Resources and schedules should be adjusted to make sure they get done.

When graded the score for a committed OKR is 1.0

**Aspirational:** ambitious goals with no clear path to get there. They may roll over from quarter to quarter, or year to year, and sometimes even be reassigned to different teams.

When graded, the average score of an aspirational OKR is 0.7, but with lots of room for variance

# Let's write an objective

Once you select the type of objective you want, it's time to start writing.

Begin with the basic formula below:

**Verb + What you want to do + In order to/for/so that (what you hope to achieve).**

**For example:** "Drive better attendance at our conference to improve the customers' networking experience"

Good OKR Examples:

**Objective:** Increase brand recognition (to make ACME Skye Rockets the market leader)

- **Key Result:** Improve + internal employee engagement (to increase job satisfaction)
- **Key Result:** Develop + a sustainable candidate lead strategy (in order to fill 90% of roles)

# Creating key results

After creating an objective, you need to define 3-5 key results that you will use to measure whether you accomplished the objective or not.

Key results should be:

- Quantitative
- Aspirational
- Specific
- Progress-based
- Drive the right behaviors

Two types of key results:

- **Metric:** (most common) track quantitative outcomes designed to gauge success on an objective
- **Milestone:** used to convert a binary outcome into a key result

When possible, use this formula: Verb + what you're going to measure + from "x to y"

For example: "Increase attendance from 350 to 500 people".

# Creating key initiatives and projects

Finally, let's write some Key Initiatives/Projects. Key Initiatives/Projects are outputs and result in a list of tasks that need to be completed.

**When possible, use this formula:** Verb + Output + as measured by the completion of X, Y, Z

The verb + output is name of your **Key Initiative/Project**, and the X, Y, Z is your list of tasks **A, B, and C**.

**For example:** "Create dynamic video content as measured by the completion of writing the script, recording the audio and rendering the video".

# Review

I will increase brand recognition as measured by *increased revenue, reduced churn, and improved customer retention*.

Good OKR Example:

**Objective:** Increase brand recognition to make ACME Skye Rockets the market leader

- **Key Result:** Increase revenue to \$750M in 2020
- **Key Result:** Reduce net revenue churn by 2.75% in 2020
- **Key Result:** Improve customer retention to 98.6%
  - **Project:** Create Customer survey to identify areas for improvement by compiling questions and communicating with key customers

# OKR Framework/Examples

## What are the Key Initiatives and Projects?

### 1. Hire more people

Create a list of suitable candidates by speaking with hiring managers, creating job specifications and contacting recruiters.

### Questions to ask:

Verb + Output + as measured by the completion of X, Y, Z

What tasks can we do to help achieve the Key Results?

# Best practices for OKR Greatness

**When done well,  
OKRs can lead to a  
host of benefits**

**Bidirectional goal-development**

**Develop agility**

**Achieve strategic and tactical alignment**

**Enable transparency**

**Feed collaboration**

**Drive tactical focus**

**Create accountability**

# Best Practices for Achieving Greatness with OKRs

## People

How people are managed, and how they collaborate

## Process

The steps and milestones you continuously drive towards

## Technology

The digital systems you need to get things done

## Data

The information you leverage to effectively pursue goals

## External Content

The events taking place outside of your immediate context

# Best Practices for Achieving Greatness with OKRs

## People

1

Be intentional about communicating with your people (key dates, milestones, opportunities to learn about OKRs)

2

Be clear about the delineation between OKRs and Performance reviews, so that you can...

3

Prioritize intellectual safety → Encourage people to set bold goals

4

Encourage a culture of continuous learning to reverse shortcomings and press on advantages

# Best Practices for Achieving Greatness with OKRs

## Process

1

Carefully design your cadences and timelines (we provide archetypes but encourage customization)

2

Getting top-level leadership guidance on goals earlier is better

3

When brainstorming OKRs, consider inviting stakeholders from core and adjacent groups to provide feedback

4

Ensure close collaboration with OKR Champions (working with them will help you + the entire organization)

# Best Practices for Achieving Greatness with OKRs

## Technology

1

Carefully design your cadences and timelines (we provide archetypes but encourage customization)

2

Getting top-level leadership guidance on goals earlier is better

3

When brainstorming OKRs, consider inviting stakeholders from core and adjacent groups to provide feedback

4

Ensure close collaboration with OKR Champions (working with them will help you + the entire organization)

- Includes feedback on how the process is working (or not) for you and your team

# Best Practices for Achieving Greatness with OKRs

## Data

1

When crafting OKRs, think about how you will measure success and if you have the information to be able to quickly and efficiently leverage it for updates

2

Proactively work with data management teams to ensure that you can gain access to information needed

3

Take data management seriously!

- (many of our clients treat data management as an afterthought; we find that organizations who focus on this tend to see greater operational efficiency)

4

Capture data about what people need to make OKRs more empowering for them

- (i.e., surveys, focus groups, occasional check-ins by OKR Champions)

# Best Practices for Achieving Greatness with OKRs

## External Content

- 1 Broader Industry: knowing the mega trends that are impacting the broader economy
- 2 Immediate Industry: understanding the forces that are shaping how your own industry is evolving
- 3 Company-Level: internalizing the strategy of your entire company
- 4 Other Teams Within Your Immediate Department/ Organization: intimately understanding what your immediate organization is focused on achieving
- 5 Other Departments: knowing key priorities of other areas of the organization

Note: While this may largely fall to strategy-oriented teams, there are benefits to having more people aware of external dynamics (and how to factor them into their own work)

# When done right, the whole organization benefits

## Executives

- Better understanding of progress of largest business initiatives throughout time periods
- Stronger cross collaboration between departments and teams
- Creating initiatives based on the Mission and Vision of the company
- High-performing, empowered employees

## Team Managers

- More focused priorities and team meetings
- Transparency and collaboration between teams and departments
- Clear alignment to Business initiatives
- Clear accountability and ownership on OKRs
- Better understand where to provide resources

## Individual Contributors

- Understand how your day to work aligns with great initiatives to the company
- Provides more purpose to your work
- Transparency on biggest priorities for the company and teams
- Ability to better prioritize growing number of tasks

# Best Practices: How to get to OKR Mastery

## Executive Leadership

- Vocal sponsorship of OKRs and key benefits
- Advanced guidance given on strategic plan
- Intellectual safety
- A focus on outcomes, not just output / time investment

## OKR Champions

- OKR Champions regularly engage key stakeholders in the organization
- Clear timeline visibility is given for the entirety of each quarter
- An OKR “playbook” is developed to codify processes
- Leadership is vocally supportive of OKR champions
- Presence of an active feedback mechanism

## OKR Development and Refinement

- OKRs are developed in a collaborative manner
- Time to develop OKRs is protected
- OKRs are revisited daily/weekly/bi-weekly
- Goals are bold
- Reflection and learning are promoted and referenced across cycles

## Key feature pull through

- Viva Goals is used to run team meetings and key department / company meetings
- Team members use check-ins and Dashboard Review to provide meaningful commentary on progress, roadblocks, and learnings

# Creating Psychological Safety

# Safety amidst change

## 1. Normalize “intelligent failure”

- Some OKRs will succeed, others fail
- Ambitious stretch goals
- Built into the scoring system

# Safety amidst change

## 1. Normalize “intelligent failure”

- Some OKRs will succeed, others fail
- Ambitious stretch goals
- Built into the scoring system

## 2. Celebrate small wins

# Establish Business Rhythms

# 3 C's Cycle

## Create – Before each quarter

- Department OKRs are defined based on the company OKRs
- Team and individual OKRs created and aligned

## Check-in – Throughout the quarter

- Evaluate your OKR progress and discuss evaluation with senior management
- Address at-risk or off-track OKRs and course-correct where possible

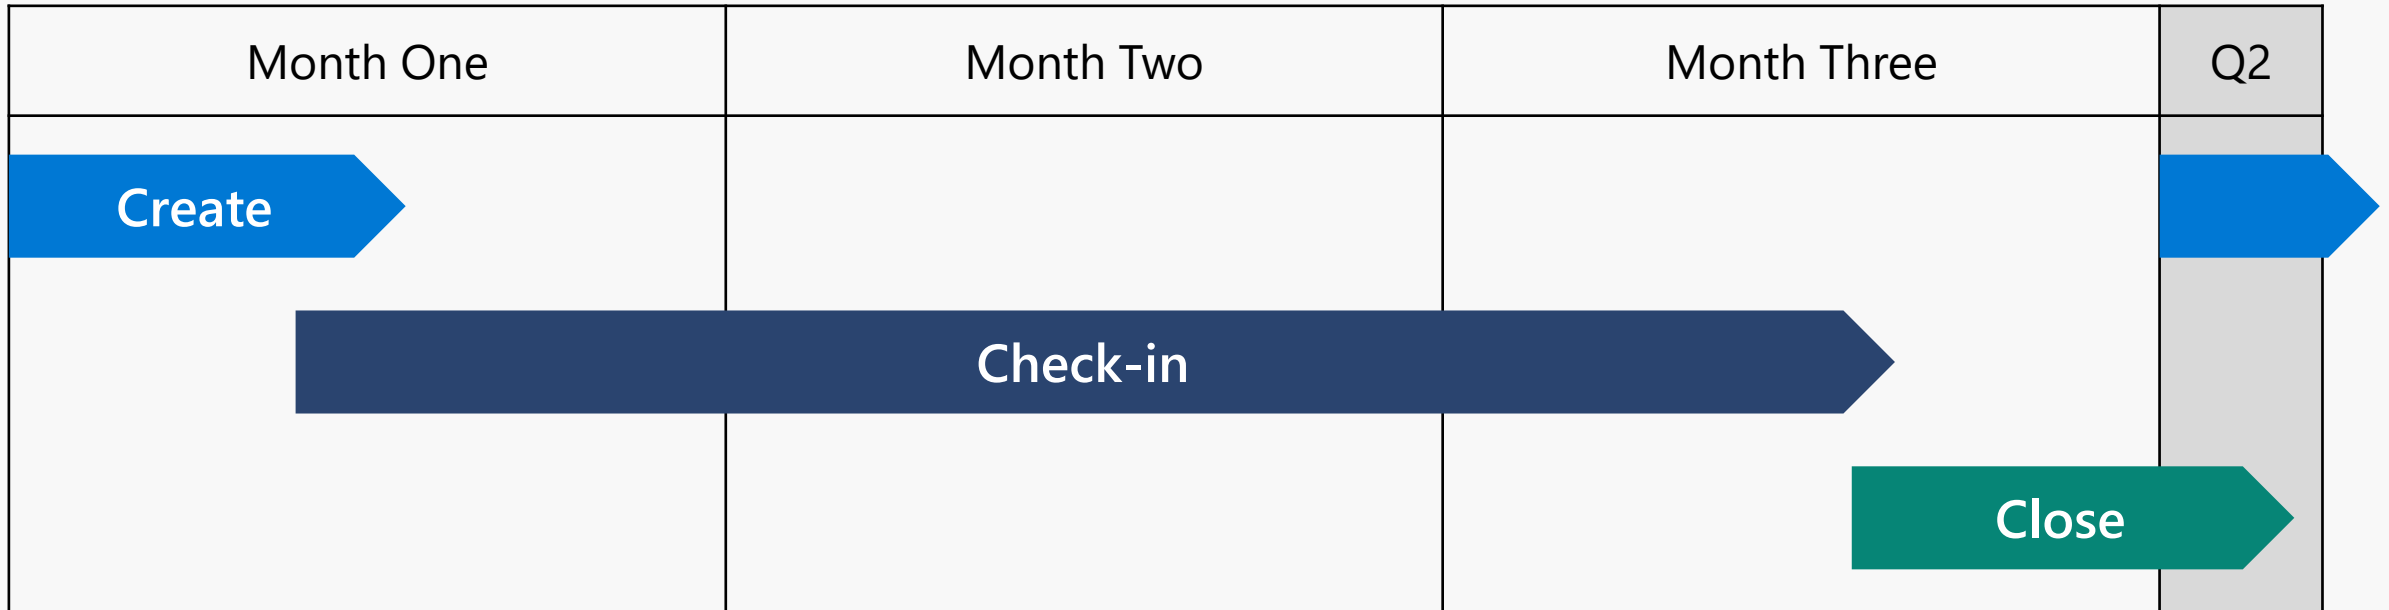

## Close – End of quarter

- Review performance with senior management, discuss achievements and lessons learned
- Define new quarterly OKRs

# OKR Timeline/Quarterly Cadence Example

## Draft + Share Company OKRs

- Share Team OKRs
- Share Individual OKRs

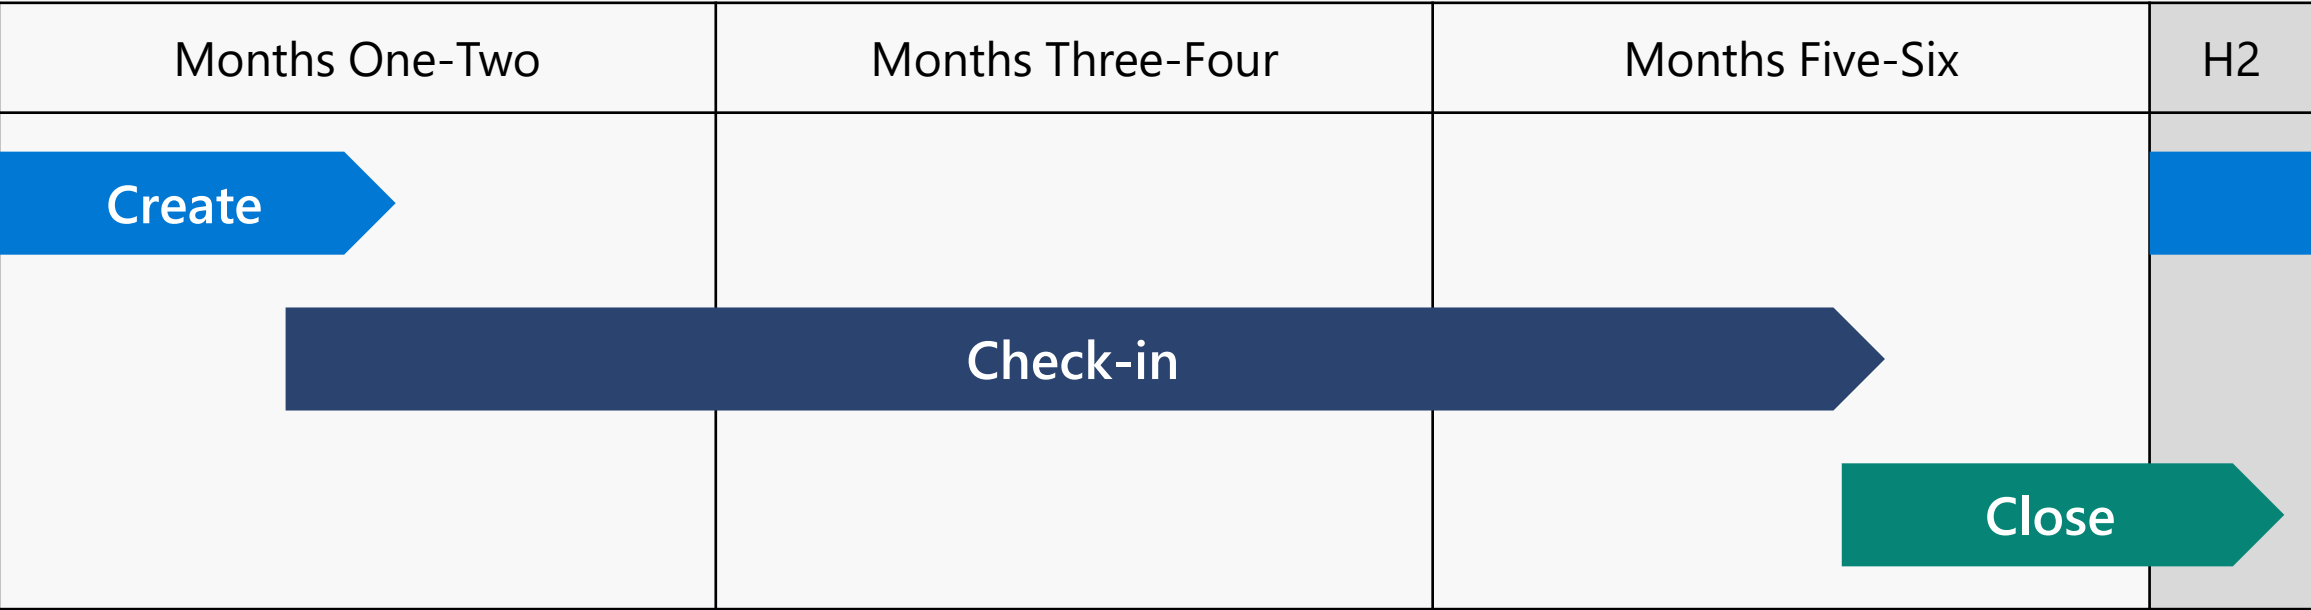

## Check-in Weekly through:

- Manual Entry
- Messenger Apps
- Integrations

## Close and Score:

- Assess: Stop, Change, Start
- Begin Again!

# OKR Timeline/Semester Cadence Example

### Draft + Share Company OKRs

- Share Team OKRs
- Share Individual OKRs

### Check-in Weekly through:

- Manual Entry
- Messenger Apps
- Integrations

### Close and Score:

- Assess: Stop, Change, Start
- Begin Again!

# Business Rhythm Tips

1. **Do:** Set strategy meetings in advance
  - Creation and Planning
  - Closing and Reflection
2. **Don't:** Add new meetings for check-ins

Make it Visible

# Make it Visible

## 1. Walk the talk

- Town Hall: How is the company doing > OKR Progress
- Team Meetings: OKR Dashboards
- 1:1 or Connect: OKR Progress

# Make it Visible

## 1. Walk the talk

- Town Hall: How is the company doing > OKR Progress
- Team Meetings: OKR Dashboards
- 1:1 or Connect: OKR Progress

## 2. Use reminders to build muscle memory and drive repetitive behavior
